	<i>Page No.</i>
Optimization of mechanized mining layout within Anglo American Platinum P. Valicek, F. Fourie, G. Krafft, and J. Sevenoaks.....	1
Case Study: using software optimization techniques for the optimal allocation of equipment in a mechanized underground mining environment D. Kok and G.R. Lane.....	35
Mechanized bolting—on-board drilling automation and a change in the support regime in low-profile mechanized mining A. Marek, S. Thorley, L. Dawson, and R.G.B. Pickering.....	49
A conceptual study into optimizing the delivery of trackbound twin ends through trackless mechanized development D. Nardini, M. Andrews, and G. Brooks.....	65
The age of intelligence. Online diagnostic and automated maintenance planning A. Marek, S. Thorley, and H. Haubmann.....	91
Mine development—access to deposit S.M. Rupprecht.....	101
Towards benchmarking of safety performance in the platinum sector B. Genc and T.R. Stacey.....	123
Hydrogeological properties of the UG2 Pyroxenite aquifers of the Bushveld Complex R. Gebrekristos and P. Cheshire.....	143
Is water conservation and water demand management a real option? F. Botha and K. Chetty.....	153
The 4th wave: culture-based behavioural safety L. Bloch.....	163
Underground environmental challenges in deep platinum mining and some suggested solutions M. Karsten and L. Mackay.....	177
Challenges and solutions in PGM furnace operation: high matte temperature and copper cooler corrosion A. Shaw, L.P.vS. De Villiers, R.J. Hundermark, J. Ndlovu, L.R. Nelson, B. Pieterse, R. Sullivan, N. Voermann, C. Walker, F. Stober, and A.D. McKenzie.....	193
Highly efficient electric smelters for the platinum industry—SMS solutions for energy saving R. Degel, H. Oterdoom, A. van Niekerk, K. Schmale, and G. Farmer.....	217
Outotec smelting solutions for the PGM Industry L. Aspola, R. Matusewicz, K. Haavanlammi, and S. Hughes.....	235
Innovative magnesia-chrome fused grain material for non-ferrous metals refractory applications D. Gregurek, T. Prietl, S.B. Breyner, A. Ressler, and N.-M. Berghofer.....	251
Interaction of graphite with synthetic matte B.M. Thethwayo and A.M. Garbers-Craig.....	261
Electrode models for Søderberg electrodes B. Larsen.....	275

Contents *(Continued)*

	<i>Page No.</i>
A practical approach to plant scale flotation optimization A. Harris, L. Venkatesan, and M. Greyling.....	287
The minerals plant of the future—leveraging automation and using intelligent collaborative environment B. David, G. Almond, K. Becerra, and D. Campaign	317
Potential changes in the physical beneficiation processes that can improve the recovery grade or costs for the platinum group metals J. Engelbrecht.....	343
Fully autogenous grinding at Unki mine concentrator—a case of successful value engineering T. Nyakudarika, S. Makumbe, and C. Rule.....	361
Hybrid Energy Flotation™—on the optimization of fine and coarse particle kinetics in a single row D. Govender, D. Lelinski, and F. Traczyk	383
Navigating above the ground risk in the platinum sector A. Lane and R. Kamp.....	411
The mystery of the missing millions T.C. Huber, T.S. Hattingh, and J.L. Porter.....	431
A perspective on underground support technologies in Southern African platinum mines to reduce safety risks and enhance productivity P.H. Ferreira	445
Towards an improved pillar design methodology at Bathopele Mine Y. Rajpal	483
Applications and benefits of 3D laser scanning for the mining industry J.W. van der Merwe and D.C. Andersen	501
Systems engineering new platinum frontiers M.C. Holton and J.L. Porter	519
Fuel cell technology in underground mining A.R. Miller, G. van den Berg, D.L. Barnes, R.I. Eisele, D.M. Tanner, J.M. Vallely, and D.A. Lassiter.....	533

Contents

	<i>Page No.</i>
Mine design, scheduling, and modifying factors methodology applied to big blocks compared with individual panels D. Hanekom.....	547
The basic resource equations (BRE & BR2RE)—a new approach to the definition and reconciliation of mineral resources and reserves at Anglo American Platinum Ltd D.H. Diering, D.C. Andersen, G. Langwieder, and G.L. Smith	559
Evaluation of net smelter returns in the South African PGE industry by application of base metal concentrate commercial treatment terms D.A. Cowen, V. Agnello, and P.J. Petit.....	577
How an object-orientated modelling approach for a mine option study can increase the quality of decision: A case study W. Gabryk, G.R. Lane, M. Terblanche, and G. Krafft	593
Case study on quantitative risk modelling to obtain a realistic risk adjusted project valuation G.R. Lane, M. Terblanche, G. Meyer, and N. Sasto	611
A framework to simplify the management of throughput and constraints A. Cambitsis.....	633
The oxidized ores of the main sulphide zone, Great Dyke, Zimbabwe: turning resources into minable reserves— mineralogy is the key T. Oberthür, F. Melcher, P. Buchholz, and M. Locmelis	647
Metal accounting in the platinum industry: How effective is it? P.G. Gaylard, N.G. Randolph, and C.M.G. Wortley.....	673
Recycling of platinum group metals from automotive catalysts by an acidic leaching process R. Rumpold and J. Antrekowitsch.....	695
Platinum^{IV} and rhodium^{III} chemistry viewed through new eyes: what new secrets can ¹⁹⁵Pt and ¹⁰³Rh NMR spectroscopy reveal about speciation as relevant to refining solutions? K.R. Koch.....	715
The recovery of platinum, palladium, and gold from a cyanide heap solution, with use of ion exchange resins E. Schoeman, S.M. Bradshaw, G. Akdogan, and J.J. Eksteen	729
The adsorption and elution of platinum group metals (Pt, Pd, and Au) from cyanide leach solutions using activated carbon C.A. Snyders, C.N. Mpinga, S.M. Bradshaw, G. Akdogan, and J.J. Eksteen.....	743
Tailings disposal: an approach to optimize water and energy efficiency P.L. Moolman and A. Vietti	767
Technology selection of stirred mills for energy efficiency in primary and regrinding applications for the platinum industry C. Ntsele and J. Allen	781
Preconcentration of UG2 platinum ore: economic benefits F. Smit, V. Coetzee, M. Seymour, and S. Notnagel	809
Case studies of simultaneous mining and mineral processing optimization applied to platinum and nickel operations S. Burks	829
Developing a phased development schedule for a platinum concentrator by utilizing a dynamic stockpile model J. Labuschagne, I. Hendry, A. Cope, G. Mfolo, and L. Napier.....	857
Using SmartTag™ to track ore in process integration and optimization projects: Some case studies in a variety of applications E. Isokangas, B. Sönmez, M. Wortley, and W. Valery.....	871

Contents *(Continued)*

	<i>Page No.</i>
The catalytic converter industry in South Africa K. Dewar	893
Update on the development of platinum-based alloys for potential high-temperature applications L.A. Cornish, M.B. Shongwe, B. Odera, J.K. Odusote, M.J. Witcomb, L.H. Chown, G.O. Rading, and M.J. Papo.....	905
Sandvik Apprentice Programme: we make it possible S. Marx	925
A perspective on the supply and utilization of mining graduates in the South African context C. Musingwini, J.A. Cruise, and H.R. Phillips	937
Development of innovative funding mechanisms for mining start-ups: a South African case J. Mothomogolo	953
A protocol for conducting and analysing plant trials: Testing of high-chrome grinding media for improved metallurgy C.J. Greet	969
The impact of entrained air and enhanced flow measurements at Eland platinum concentrator C.V. O'Keefe, J. Felix, R. Peacock, T. Huysamen, and P. Thwaites	981
Process and asset monitoring at a PGM concentrator for UG2 concentrate J. Rademan, and J. Wiese.....	1003
The use of high-pressure, water-hydraulic (hydropower) technology in South African narrow-reef, hard-rock mines P.D. Fraser	1017
What is the best energy delivery system for hand-held stope drilling and associated equipment in narrow-reef hard rock mines? P.J. Petit and P.D. Fraser	1037
